Specifications/基本参数

Operating temperature -10~60°C
使用温度

Storage temperature -30~70°C
存储温度

Notes/注意事项

1. Do not squeeze violently during installation. Do not press down directly while the card slot is misaligned, which may cause damage to the Spirit Motor Cowling.

安装时禁止暴力挤压,如果卡槽未对准就直接下压,可能会造成装饰盖损坏;

2. The Spirit Motor Cowling is plastic, which is decoration and non-forced parts. Do not subject to external forces during use, such as trampling, leaning.

电池底座装饰盖材质为塑胶,主要功能是装饰作用,非受力件。严禁在使用过程中受到外力作用,例如踩踏,倚坐等行为;

3. Please clean it daily to maintain its appearance decoration effect.

本产品为外观装饰件,请日常清洁,保持其外观装饰效果。

Installation/安装方法

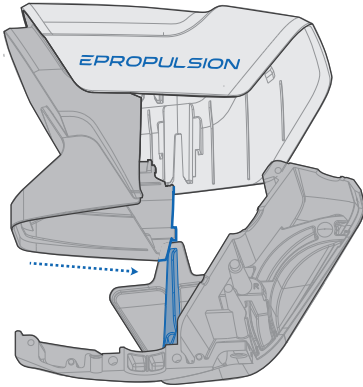

Please refer to the back of the instruction.

请参阅说明书背面

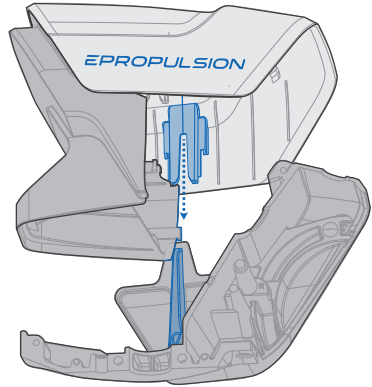

Instruction of Spirit Motor Cowling

Spirit 电池底座装饰盖安装说明书

Installation/安装方法

Step1

Step2

Step1

Close the bottom end surface of Spirit Motor Cowling to the stop block of the battery base (as the blue area shown above).

将底座装饰盖下壳端面(如上图蓝色边线)贴紧电池底座限位柱(如上图蓝色区域限位柱)；

Step2

Wipe the clamping slot of Spirit Motor Cowling to the bottom of the battery base stop block (as the blue area shown above). Then the buckle of Spirit Motor Cowling will snap in the battery base, with a slight "click", which means successful installation.

将底座装饰盖上壳卡槽(如上图蓝色卡槽)插入到电池底座限位柱(如上图蓝色区域限位柱)底部。此时装饰盖的扣位会随之扣入电池底座,轻微“咔”的一声,证明安装成功。

When it needs to be disassembled, pull up the Spirit Motor Cowling directly.

当需要拆卸时,将电池底座装饰盖直接向上拉起即可。
